

PROPERTIES:

ALTACOR 50 is a Corrosion inhibitor with excellent film persistency has low emulsification tendency and is stable at high temperatures.

PRODUCT BENEFITS:

- Increased Production
- Reduction in Plugging of Wells
- Reduce need for Costly Wireline Services
- Eliminates Deposits on Screens & Tubing

PRODUCT DATA:

- PH: = N/A
- Specific Gravity: = 0.98+- 0.02
- Color: = Clear
- Scent: = Solvent Odour
- Stability: = Highly Stable (> 1 Year)
- Storage: = Store in a Cool Dry Place

DIRECTIONS:

ALTACOR 50 can be added at the well head directly injected into the flowlines at required rates based on fluid volumes and severity of problem. **Treatment Rates are usually determined by the Well Operator initially starting with a higher amount and slowly decreasing the injection rates till an optimum rate is achieved. This is done over a week period to achieve your highest level of optimization.**

PACKAGING:

This product is available in packages of: 20L, 205IL, 1025L Totes

GENERAL FIRST AID INFORMATION**IN CASE OF INHALATION**

Remove victim to fresh air. If breathing is difficult, oxygen may be beneficial if administered by trained personnel. Immediately transport victim to an emergency care facility.

IN CASE OF INGESTION

Rinse victim's mouth with water. DO NOT INDUCE VOMITING. Have victim drink 300 mL of water to dilute material in stomach. If milk is available, it may be given AFTER the water. Transport to an emergency facility.

IN CASE OF CONTACT WITH SKIN

In case of contact with skin, remove contaminated clothing and flush with water for at least 60 minutes. Do not interrupt flushing. Transport to an emergency facility.
